EDIE'S ENVIRONMENTAL CHALLENGE

In Edie's Experiments: How to Be the Best, Edie and Dean compete in an Eco Competition at their school. The class comes up with lots of ideas to help make their school 'greener', from rainwater tanks to solar panels and even sculptures made from recycled materials!

Your challenge is to come up with your own idea to help make your school 'greener'. Brainstorm below, then draw a picture or diagram of your idea.

★ ★ My Environmental Idea ★ ★

Extension Activity: Create a poster or powerpoint presentation to showcase your idea!
